MUJI, NY

MARCA JAPONESA QUE SEMPRE APOSTOU NO DESIGN SIMPLES, COM RELEITURAS DE OBJETOS FUNCIONAIS GARIMPADOS AO REDOR DO MUNDO.

encontro do tradicional com o contemporâneo.

Found MUJI

MUJI has always approached everyday life with a searching and finding attitude, rather than merely focusing on making things.

We search around the world for daily necessities that have been maintained and used for a long time; we modify them slightly to reflect changes in life, culture, and habits; they are then reintroduced at reasonable prices.

Since 2003, this activity has been named Found MUJI, and we have continued our journey to all corners of the world in search for valuable objects.

Sometimes the objects we discover are not readily suitable to our current lifestyles. Through constant dialogue with the original makers, we refine these objects up to the quality standards of today, and ultimately refurbish them as MUJI products.

We will sharpen our vision to update the discovered objects for modern living, making improvements yet still preserving the very essence of the originals.

Found MUJI is an activity that MUJI will carry out together with you.

MUJI
BASQUE

There is a way to live the region called French Basque and Spanish Basque. The beauty of our products is not just the way they look, but the way they feel. The way they are made. The way they are used. The way they are loved. The way they are shared. The way they are passed on. The way they are remembered. The way they are cherished. The way they are treasured. The way they are loved. The way they are shared. The way they are passed on. The way they are remembered. The way they are cherished. The way they are treasured.

Aroma Labo

Find the fragrance that's just right for you. 48 blends of essential oils mixed to your specifications while you wait.
